

## Quality Policy

At Omixon we are passionate about Quality. We are conscious of the clinical importance of the results generated by our products and on their impact on patient outcomes, and of the need for compliance with customer and regulatory requirements. We continuously improve and maintain effectiveness of our Quality Management System by

- establishing relevant and measurable Quality Objectives
- regularly conducting internal audits
- systematically operating Corrective and Preventive Action procedure
- regularly conducting Management Review Meetings and
- effectively communicating to all stakeholders

Managing Director: Simon
